

Meyer 8.5' Diamond Edge with optional curb guards and deflector.

A heavy-duty plow that doesn't lie down on the job.

The Diamond Edge™ will move more snow in less time. It is the tallest, most aggressive bottom-trip snowplow available. The bold design features a 70-degree attack angle and precise curvature that delivers superior path clearing and snow-rolling action.

The bottom-trip feature keeps the moldboard upright and performing, while the lower portion gives way when obstacles are struck, so you can keep plowing without losing the entire load. Not only does the trip-edge make plowing more efficient, it also absorbs and dissipates the shock caused by obstructions saving wear and tear on the driver, truck and plow.

Diamond Edge plows are eligible for a full 5-year warranty. See back cover for details.

Built To Last.

Meyer® Diamond Edge™ plows feature massive adjustable springs with the longest service life in the industry. Unlike other plows' trip springs, Meyer plows can be adjusted without any special tools. Standard equipment on Diamond Edge also includes a reversible cutting edge that prolongs the cutting edge's life.

Moldboard shown with optional deflector.

Tall, Aggressive Moldboard

With an aggressive 70° attack angle and 31.5" moldboard, you can move more snow in less time. Standard reversible cutting edge breaks up packed snow and ice. Reversible to extend wear life.

Bottom-trip

Only the lower portion of the plow gives way, while the rigid moldboard remains upright so the load is not lost.

Meyer Diamond Edge Product Specifications

Model #	Blade Type	Moldboard Length	Moldboard Height	Moldboard Gauge	Vertical Ribs	Plow Trip Springs	Cutting Edge	Average Width at Full Angle	Angling Rams	Weight Complete*
DE-7.5	Bottom-Trip	7'6"	31.5"	12 Steel	6	4	1/2" x 6"	78"	1 1/2" x 10"	805 lb.
