

Meyer 6'8" Steel Drive Pro with optional deflector.

The small plow with a big attitude.

Plowing driveways in a full size pickup with an 8-foot plow can be a challenge. That's why we engineered the Meyer® Drive Pro™ to be a lightweight, commercial-grade plow designed to provide optimal maneuverability in tight residential settings. The Drive Pro is strong in the right places and is made with the same heavy-duty rams and hydraulic system as our full-sized plows.

Optimal maneuverability in tight spaces.

Meyer Drive Pro plows, when combined with today's most popular ½ ton and light pickups and full size SUVs, are the perfect size for snow professionals that need maximum maneuverability. Perfect for plowing driveways or small condo complexes.

Poly Moldboard

Steel Moldboard

Durable Construction

The lightweight, commercial grade steel or poly plow is built with Meyer's Reliable Over-time Construction (ROC) process. The moldboard features heavy-duty trip springs, robotically welded seams and cross-sections and slot and tab construction for increased reliability and performance.

Drive Pro uses the same hydraulics and angling rams as our full-sized plows for commercial grade performance.

The Drive Pro is compatible with the most popular makes and models.

Model	Description
Chevrolet	Colorado
Chevrolet	Silverado
Chevrolet	Trailblazer
Dodge	W1500
Ford	Explorer
Ford	Ranger
Ford	F-150
GMC	Canyon
Jeep	Liberty
Jeep	Wrangler
Nissan	Frontier
Toyota	Tacoma

Easy On/Off

When dismantled, the mounting bracket leaves the front of your vehicle with a clean, neat appearance. The easy-to-use jack and single handle pull disconnect is integrated into the lift frame and attaches or detaches the plow in seconds.
